

“I love being able to hear the person’s voice because I can understand a lot of what they say... But the captions are there in case I miss something.”

Enjoy Your Telephone Conversations Again!

CapTel™ Makes it Possible.

Ideal for people with some degree of hearing loss, the CapTel works like any other telephone with one important addition: it displays every word the caller says throughout the conversation. CapTel users can listen to the caller, and can also read the written captions for added clarity.

Perfect for anyone who uses hearing aids or who finds it difficult to hear/understand clearly on the telephone.

Understand every word on the phone with the help of written captions. CapTel makes it possible.
